

YASH SRIVASTAVA

Software Developer | DevOps Engineer

+91 7238854915 | yashsira@gmail.com | Lucknow, Uttar Pradesh | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Computer Science and Engineering student (B.Tech, 2027) with hands-on experience in DevOps, CI/CD pipeline automation, Docker containerization, and AWS EC2 cloud deployment. Delivered a live client website and built real-world automation projects using Jenkins, Git, Python, and Java. Passionate about scalable infrastructure, automation, and clean code. Eager to contribute to a software engineering or DevOps team in a production environment.

EDUCATION

Bachelor of Technology - Computer Science and Engineering

2023 - 2027

Shri Ramswaroop Memorial College of Engineering and Management, Lucknow

Class XII - Central Academy

2023

Board: UP Board

Class X - Central Academy

2021

Board: UP Board

TECHNICAL SKILLS

Programming Languages: Python, Java, C

Web Technologies: HTML, CSS

Databases: SQL (Basic), DBMS

DevOps and Cloud: Git, Docker, Jenkins, AWS EC2

Core Concepts: Full Stack Development, DevOps Fundamentals, CI/CD, Automation

PROJECTS

Automated CI/CD Pipeline for Web Application

Jenkins | Docker | AWS | Git

- Designed and implemented an end-to-end CI/CD pipeline using Jenkins for automated build, testing, and deployment.
- Containerized the application with Docker ensuring consistent environments across development and production.
- Deployed on AWS EC2 for scalable cloud hosting and integrated Git for version control with automated triggers.
- Implemented monitoring and logging to track application performance post-deployment.

Olive Dental and Surgical - Live Client Website

HTML | CSS | Vercel

- Designed and developed a professional website for a real dental clinic, live at <https://olive-dental.vercel.app/>
- Built a fully responsive UI with HTML and CSS for cross-device compatibility.
- Managed deployment on Vercel and performed basic SEO setup to improve online visibility.

College Event Management System

HTML | CSS | Backend | Database

- Built a web application to manage college events and participant registrations end to end.
- Implemented backend logic for event handling and integrated a database for storing event and user data.
- Replaced manual processes with a digitized system, improving operational efficiency.

Personal Portfolio Website

HTML | CSS

- Developed a responsive personal portfolio to showcase technical skills and projects with a clean UI.

CERTIFICATIONS

- DevOps Certification - Ongoing
- Diploma in Python - 2023
- Python Programming Essential Bootcamp
- Java Programming Essential Bootcamp

KEY STRENGTHS

- Strong analytical and problem-solving skills with hands-on experience debugging and optimizing real-world systems.
- Quick learner who independently picked up Docker, Jenkins, and AWS EC2 to deliver production-ready projects.
- Passionate about DevOps, automation, and cloud infrastructure with practical project experience to back it up.
